

**THE BEST PHYSICIANS AND SCIENTISTS FROM AROUND THE WORLD  
COME TO FLORIDA. BUT NOT FOR THE SUNSHINE.**

The prevention and cure of cancer is Moffitt's single focus, and the discoveries taking place in our labs are transforming the way the disease is treated and perceived across the globe. This has led to our NCI designation as a Comprehensive Cancer Center – one of only 41 in the nation and the only one in the state. And it's why the brightest minds in research and medicine collaborate here.

Moffitt Cancer Center
