

**THE MIND OF A SCIENTIST, BODY OF A PHYSICIAN AND SPIRIT OF A PATIENT.
ALL KEPT GOING BY THE HEART OF A NURSE.**

No one at Moffitt supports the fight against cancer in more ways than our nursing staff. Their strength, dedication and compassion fuel our mission to contribute to the prevention and cure of the disease, lifting everyone else up along the way. We're proud to honor them all during Nurses Appreciation Week – a time that makes official how we feel year-round.
