

**ALL NATURAL DISASTERS RAISE THE SAME QUESTION.
WHEN'S MY POWER COMING BACK ON?**

No one has taught us more about dealing with disasters than Sandy, Irene and Katrina. And we know that until your customers are up and running, the blame falls less on Mother Nature and more on you. This is what drives us to be the leaders before, during and after emergency outage events. From customized storm kits to strong relationships with top manufacturers to warehouses standing by across the country, our team is ready. While we can't predict the weather, we can guarantee one thing: what you need, where you need it and when you need it.
